

# Keller Logistics Group

RESPONSIVE • RESOURCEFUL • RELIABLE

We understand how important it is to meet your customers' demand for product. We help you fulfill your customers' requirements by being **responsive, resourceful, and reliable people in logistics**. Our company's core values were created from the legacy left behind by our founder, Thomas E. Keller. We take pride in thinking like Tom. We know that you, our customer, benefit from us staying a step ahead of the competition, rely on us to provide good customer service, and are supported by the respect, accountability, and integrity of working as a team. We plan to carry on this legacy for years to come. This is our promise to you.

Our **warehouse locations** can be supported by our asset based trucking affiliate, or our freight solutions transportation affiliate making us a strong 3PL partner. We have processes and resources in place to find warehouse sites, take down leases, and begin operations anywhere in the country. Our Co-Packing facilities are equipped to carton 4, 6, 12, 18, and 24 pack cans/plastic & glass bottles configurations, and can shrink bundle up to 30 count packs. We also offer handwork such as kitting, repacking and end aisle display building.

We give back to the communities we serve by supporting the charities and projects that mean the most to our employees through financial sponsorships and by donating a percentage of the revenue generated by our charity trucks. For more details about some of the causes we support, visit <https://kellerlogistics.com/about-keller/community-service/>
